

Infini^{te}
Cable System

Total Fiber Solution

explore infinite bandwidth

A globe of the Earth is the central focus, rendered in a dark, metallic brown color with glowing gold outlines of continents. The globe is set against a dark, textured background. In the foreground, numerous fiber optic cables are visible, some as thin lines and others as bright, out-of-focus blue and white light trails that create a sense of motion and connectivity. A dark blue rectangular box is overlaid on the right side of the globe, containing the text 'Infinitē' and 'Cable System'.

Bicsi[®]
CORPORATE
MEMBER

発見! アジアのリーディングケーブルソリューションプロバイダ

To cope with the rapid growth of communication demand, we strive for high-speed and high-bandwidth data transmission of cabling systems and serve customers worldwide.

As one of the largest cable solution providers in Asia, we offer the full range of optical fiber and copper cabling solutions including Submarine, OPGW, Electric Power, Radio Frequency, Fiber-to-the-home/office and Structured Cabling Systems. We have become one of industry pioneers worldwide in Telecom, Broadband, Transport, Oil & Gas, Electric Utility and Enterprise markets. We are also a BISCI corporate member.

世界をつなぐ

CONNECT the world

offer state-of-the-art cabling solutions to customers worldwide

世界中のお客様に最先端のケーブル配線ソリューションを提供

Our manufacturing facilities have been accredited with ISO 9001:2000, ISO 14001:2004 and OHSAS 18001:1999 international standards.

Our cable systems are developed for the most demanding applications, engineered to meet stringent standards and specifications. The product is manufactured to the highest quality standards and tested to ensure that it exceeds the application standards, such as TIA/EIA 568 and ISO/IEC 11801.

We are committed to offering high-quality and high-performance cabling solutions - all supported by 25 years product, system performance and application assurance warranty that provides customers the peace of mind.

CAT 5E UTP / FTP

InfiniTe 5e system is designed to comply with Category 5e industry standards (ANSI/TIA/EIA 568C and ISO/IEC 11801:2002 Class D) and supports high-speed data transmission such as Gigabit Ethernet.

CAT 6 UTP / FTP

InfiniTe 6 system is designed to comply with Category 6 industry standards (ANSI/TIA/EIA 568C and ISO/IEC 11801:2002 Class E) and supports high-speed data transmission such as Gigabit Ethernet

CAT 6A UTP / FTP

InfiniTe 6A system is designed to comply with Augmented Category 6 industry standards (ANSI/TIA/EIA 568C and ISO/IEC 11801:2002 Class EA) and supports high-speed data transmission such as 10 Gigabit Ethernet

MULTIMODE FIBER (OM1, OM2, OM3, OM4)

SINGLEMODE FIBER (ITU-T G.652, 655, 657)

InfiniTe Fiber system is designed to comply with industry standards (ITU-T G.651, ITU-T G.652, ITU-T G.655, ITU-T G.657, IEC 60793, IEC 60794, EIA/TIA 598B, etc.) and supports high-speed data transmission such as 10 / 40 / 100 Gigabit Ethernet

8 GOOD REASONS

choosing Infitẽ

Infitẽ を選ぶ8つの理由 as your partner

One of the world's leading cable solution providers

State-of-the-art Information Technology capabilities

Comprehensive range of fiber and copper cable solutions

25 Years Certified System
Global Warranty

Global expertise with local support

Professional and dedicated customer service

Maximize customer ROI by our cost-effective solutions

Improved network performance, reduced downtime
